A ning clergyman printed a sermon, the subject of which was the necessity for moderate and rational relaxation. in which occurred the passage, " men should work and The simple want of a stroke ruined it, and the religious world was scandalized by reading, "men should work and play, too !"

THE MORMONS .- The Mormons, according to their own census, are decreasing in Utah. In 1856 they numbered 38,000; in 1857 only 31,022, and in 1858 only about 30,000. They claim, however, that they are increasing in the country at large, and in the world. and they ascribe the diminution in Utah to temporary auses and absences. It is computed that there are 2 000 in Great Britain and Ireland, and 7,000 on the entinent of Europe, besides some 5,000 in Canada, 1 000 in California, and several thousand in the Eastern states and South America. Altogether they number (25,000). Utah is the only place where they practice polygamy and carry out their theories of civil governent as well as of religion, and it is the only place where they do not increase.

We would invite the attention of our readers to the new AGUE CURE" advertised in our columns. It is from such a parter as will give the public confidence in its efficacy, and we have learned from reliable sources, that its virtues will ustain their fullest expectations. Citizens of the West canor fail to appreciate the paramount value to them, of a safe and certain remedy for this afflicting distemper without other Opinine or minerals, and consequently without injury o the constitutional health. We have more than ordinary satisfaction in proclaiming this remedy, because we are convinced it will answer a crying want among us, and serve to elieve a great amount of suffering.

THE ONLY ARTICLE UNRIVALLED IN MARKET.

WITH IMMENSE HOME AND EUROPEAN DEMAND. The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; makes it soft, glossy, healthy and beautifut, and if used by the young two or three times a week, it will never fall or become gray; then, reader, read the following and judge for yourself:

NEW YORK, Jan. 8, 1859. MESSRS. O. J. WOOD & CO., Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my ha. being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself. The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was, but who have my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am

in and out of the N. Y. Wire railing Establishment every My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, Yours Respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn. Livingston, Ala., Feb. 14, 1858. PROF. WOOD-Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks, and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper. Yours, &c., S. W. MIDDLETON PHILADELPHIA, Sept. 9, 1859. PROF. WOOD-Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering-was in fact BALD. Thave used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I duce many others to try it.

BARRY & Co.-Gentlemen :-THE SEWING MACHINE of Scovil & Goodell's pattern. which I purchased from you some time since, sews with great rapidity and neatness. Its great recommendations are its simplicity of construction and its adaptation to family use. The negroes and children about the house soon acquire a knowledge of its use, and sew apparently as well as the most experienced. I have no hesitancy in recommend-
